Advances 28%  
Total Dividend per Share 16.5t

**DELIVERING ON STRATEGIC INITIATIVES**

Letshego’s strategic intent is to build a leading African financial services group. Delivering the strategy is centred on four key areas of execution:

- **Growing the franchise:** deposit-taking commenced in Mozambique (February) and Rwanda (August), whilst in Namibia a provisional licence was granted in July. Subject to Central Bank approval we expect the licence to be confirmed in the current financial year. Progress has been made on developing the approach to financial inclusion including financial services access via agents and mobile telephony.

- **Building capabilities:** continued investments in systems infrastructure have created a unified platform in six of our countries from which early benefits are beginning to be realised. Group functions have been strengthened in the areas of regional sales, human resources, project and transformational management and investor relations. At a country level, a new organisational structure has been agreed with added focus on sales, service and risk management. Development of local talent is a key focus.

- **New operating model:** a new corporate governance framework, in line with King III, is being rolled out to all subsidiaries. Customer experience standards were developed and branch look and feel improvements have been implemented. Investments have been made in direct sales teams capacity and capabilities. The payroll and microfinance operations in Uganda were successfully integrated.

- **Leveraging the balance sheet:** diversification of funding sources has continued and the debt to equity ratio has improved to 47% (2014 January: 56%). The cost of borrowing has remained at prior year levels and the group’s credit rating of Ba3 was maintained in an environment of financial services’ ratings being downgraded.

**HEADLINE PERFORMANCE - HIGHLIGHTS:**

- Profit before tax increased by 24%* to P970 million  
- Margins were consistent with the prior period despite the prevailing competitive environment  
- 60% of profits before tax were generated outside of Botswana  
- Cost to income ratio was reduced to 29%  
- Impairment charges were 2.0% on average net advances  
- Capital adequacy ratio remains above 60%

Our profit performance was strong with 91% (P884 million) of profit before tax coming from our four largest markets – Botswana, Mozambique, Namibia and Tanzania.

Non-interest income increased by 35%* and it remains an area of focus to grow these revenue streams as interest rates / margins are under pressure.

Progress has been made in closing out net foreign currency positions (mainly on the South African Rand and Mozambican Metical) – a small foreign exchange loss of P1.8m was incurred, as compared to a P50m gain in the previous period.

Investments in human capital related to our strategic agenda resulted in a 13%* increase in staff costs. Other operating costs were generally flat with no once off charges or provisions taken.

The quality of the advances book was within target levels with an impairment charge on the net portfolio at 2.0%.

The Group remains well capitalised with a capital adequacy ratio of 62% (2014 January: 68%) and has cash resources of over P521 million (2014 January: P511 million).

**GROWTH INDICATORS - HIGHLIGHTS:**

- Advances to customers (net) increased by 28% to P5.7 billion  
- The payroll portfolio increased by 26% to P5.3 billion, and the microfinance portfolio increased 117% to P190 million. Growth in the Swaziland currency positions (mainly on the South African Rand and Mozambican Metical)  
- The customer base grew by 11% to 265,265  
- The payroll portfolio increased by 26% to P5.3 billion, and the microfinance portfolio increased 117% to P190 million. Growth in the Swaziland

The largest contributors to advances growth in absolute terms were Namibia, Mozambique and Botswana, contributing P944 million (75%) of net increase, as well as driving the payroll portfolio growth. Lesotho operations’ portfolio doubled to P190 million. Growth in the Swaziland portfolio was revived after product reviews, closing at P151 million, up 41% from the prior period.

(continued on the next page)
COMMENTS (continued)

The microfinance operations in Kenya, Rwanda and Uganda, combined, achieved growth of 117%, closing at P350 million. Underlying this strong result was significant growth in the low income housing and MSE loan solutions.

Customer access points across Letshego’s footprint increased by 19% to 252, and distribution reach was enhanced with the addition of over 100 commission-based sales agents, bringing the Micro and Small Enterprise (MSE) complement to 560. Overall the customer base rose to over 265,000 – an increase of 11%.

RETURNS - HIGHLIGHTS:
> Return on Assets was consistent with the prior year at 14%
> Return on Equity increased to 21%*.
> Earnings per share increased by 20% to 33.2t.
> Dividend declared during the period equates to 50% of profit after tax.

Return on assets and on equity both stabilised at prior period levels, with a slight improvement in the latter. Both are within target levels.

Basic earnings per share for the period were 33.2 thebe which translated to an increase of 20% on the prior year (on an annualised earning basis).

The dividend policy remains at a 50% pay-out ratio and therefore the final dividend of 8 thebe a share brings total dividends declared during the current financial period to 16.5 thebe a share (P359 million). This represents a dividend yield of 6.5% (2014: 3.4%).

BOARD OF DIRECTORS
Mr. Legodi Serema retired from the board at the Annual General Meeting in July 2014 and the Board thanks him for his service to the Group.

CHANGE OF YEAR END
The 2014 year is the first period in which Letshego’s year-end changes to 31 December. Therefore, these audited results are for the 11 months ended 31 December 2014. Kenya, Mozambique, Rwanda and South Sudan subsidiaries already had a December year-end cycle.
